

GATEWAY EXPERIENCE ONLINE PROGRAM FAQS (2015)

Is the new eLearning Gateway course the same as the home Gateway course that I purchased years ago? Is it self-paced or is there a set time?

Yes, the e-Learning Gateway Experience Wave I program is using the exercises from the Wave I CD album (which has been around for many years). Each Wave is an online course consisting of six lessons, one lesson for each of the six exercises in the GE Wave album, plus an introduction and a wrap-up. It is designed so you can progress at your own pace, ideally completing a lesson every week. You can listen to the exercises whenever you have time, even multiple times if you so desire.

What is the format of The Gateway Experience® Waves I-VI e-Learning Program?

The e-Learning Gateway Experience Wave Series I-VI is six modules or waves offered online for your convenience.

Each Wave is an online program consisting of six lessons, one lesson for each of the six exercises in the GE Wave album. It is designed so you can progress at your own pace, ideally completing a lesson every week. You can listen to the exercises whenever you have time, even multiple times if you so desire. It also includes homework assignments and online group discussions.

An optional weekly “office hours” teleconference with the trainer will take place every week for participants to interact with the trainer and each other and ask questions. It will be recorded so you can listen to it at any time. If you can't make the conference and wish to talk to the trainer, you can make special arrangements during a time that suits you.

How many people will be in each Gateway Experience Waves I-VI e-Learning class?

There are a maximum of 30 participants for each class.

What is the cost of the e-Learning Gateway Experience Wave Series I-VI program?

The cost is \$295.00 for each Wave. The training CDs are not included in the price of the program. These CDs may be purchased separately on TMI website or downloaded from Monroe Products website.

If my husband and I both want to take it, do we get a discount?

There is not a discount for the program, but you only need to purchase one set of the CDs.

I assume this program works with a laptop? Would it also work with an iPad?

Yes, this program works with a laptop or iPad. There is some weekly homework that requires you to type a couple of paragraphs in the online discussion group threads, so you might keep that in mind when using your iPad.

Is this online program based on The Gateway Experience CDs? Are they included in the price of the seminar?

The CDs are not included in the cost of the online program. They can be purchased through the TMI bookstore or downloaded from the Monroe Products website.

What is the schedule for 2015 for the Gateway Experience Waves I-VI e-Learning program?

To view the current schedule for the Gateway Experience Waves I-VI e-Learning program click [HERE](#).

Are there any prerequisites for the Gateway Experience Waves I-VI e-Learning program?

No, there are no prerequisites.

How long will I be able to access the lessons for each module or Wave?

Lessons will be available during the six weeks of the class and for two weeks afterward.

I have purchased all CDs of GE Waves I to VI. Would it be more beneficial to have studied the CD home program before committing to the online version?

The e-Learning program is designed for people who have no prior experience with Hemi-Sync or other TMI tools. Therefore, we believe you will benefit from the online program, for the following reasons:

- you will have access to a TMI trainer,
- there are more materials in the online program (than in the manual which comes with the Wave I album),
- you will benefit from the weekly homework assignments and online group discussions,

- you will be able to interact with the trainer and other participants via a weekly teleconference call,
- you will benefit from the online community (other participants' comments and questions).

What additional benefits does the online course have over working alone with the CDs?

Doing the exercises as part of a group is often more beneficial, because you will be able to ask questions to the TMI trainer and other participants, befriend other people who are on the same journey as you, and in general feel more supported than if you do the Wave I album on your own.

Does the Gateway Experience Waves I-VI e-Learning program serve as a prerequisite for other TMI programs?

Doing the exercises as part of a group is often more beneficial, because you will be able to ask questions to the TMI trainer and other participants, befriend other people who are on the same journey as you, and in general feel more supported than if you do the Wave I album on your own.

You will also receive a certificate of completion at the end of the program and a \$100 certificate that you can then use at TMI for a core residential program (Gateway Voyage[®], Guidelines[®], Lifeline[®], Timeline, Heartline, Exploration 27[®], and Starlines I & II).

Do I have to take the Waves in sequence or can I skip around?

If you have completed a residential Gateway Voyage, you can take any Wave when it is offered. The cost is \$395.00 for each Wave or module.

How do I register for the Gateway Experience Waves I-VI e-Learning program?

Each participant will have to register just like they would for a residential program, either online or by calling TMI Registration. After the registration is processed, the trainer will be notified and will communicate directly with the participant.

When you register, you will be sent information on how to set up your account for the class. The trainer will send an email to confirm your access when the class begins.

Can I register late for e-Learning programs?

If there is space in the class, you may enroll until the second class. After that time, you will need to wait until the next offering.

What is the cancellation policy for e-Learning programs?

e-Learning cancellations must be requested via email to registration@monroeinstitute.org or by calling (434) 361-1500 more than ten days before the start of the program to receive a refund less a \$50 processing fee. There is no refund if cancelled within ten days of program start. You may request a transfer to another program. If the transfer is more than ten days before the start of the program, there is no fee. Within ten days of the start of the program, there is a \$25 administrative fee. There will be no refunds for those who do not cancel and do not participate. There will be no refunds if you only participate in part of the program.
